

STEP-BY-STEP: Complete your virtual contact lens follow-up

Follow these steps after wearing your contacts for 1 week to set up your contact lens follow-up exam on the EyecareLive Patient Care App :

First time user? Scan the QR code below to download the application, create your account, & select your practitioner.

Start a contact lens consultation by selecting “start a consultation” from the dashboard.

Describe your condition by typing “contact lens follow-up” in the description space. Take photos of each eye and upload.

Schedule an appointment time from options available, or click “send information”.

Click dashboard alerts to take the visual acuity test and contact lens survey. Your eyecare provider will be in touch shortly!
